LIQUID FILLING UNIT

SISMONO L

Softwares/PLC

Description

- Liquid filling unit – CO₂ or N₂O.
- Up to 6 filling lines (outlets).
- Vacuum pump-out management.
- Curves display.
- Customer recipes management : initialization, Pre-filling, Filling, Post-filling.
- Operator interface : touchscreen 15"

Working Conditions

- Industrial gases : CO₂ or N₂O.
- Working pressure 110 bar.
- Working Temperature : -40°C / +60°C

Connection - Tracability

- Ethernet link with SisVision system.

Technical Data : Parameters

- Liquid weight(kg).
- Pressure (bar) PT – Pressure Transmitter.

Options

- Rinsing step management.
- Cylinder carrier with scale.
