MIXED GAS FILLING CONTROL

SISMIX

Softwares/PLC

Description

- Mixed gas filling control center.
- Up to 6 gases lines (inlets).
- Up to 6 filling lines (outlets).
- Vacuum pump-out management.
- Curves display.
- Customer recipes management : initialization, Pre-filling, Filling, Post-filling.
- Operator interface : touchscreen 15"

Working Conditions

- Industrial gases : Oxygen, Argon, Azote, CO₂, He, H₂.
- Medical gases : Oxygen.
- Working pressure up to 420 bar.
- Working Temperature : -40°C / +60°C

Technical Data : Parameters

- T(°C) cylinders or bundles.
- Pressure (bar) PT – Pressure Transmitter.
- Mass flow rate.

Connection - Tracability

- Ethernet link with SisVision system.

Options

- Modem for remote access.
- Fully integrated system inside a secured frame.
- flowmeter in option
- weight scale in option
