FILLING CONNECTOR

## Filling Connectors

PDF FILE

## Description

SisNovam and MRTech HP wide expertise in gas filling connectors is the results of 25 years close collaboration with the major gas producers in the world.

---

## Working Conditions

- Any type of gas and norm : F/C/G/E/D/L/M/N type, DIN 477, UNI, CGA 540/320, ISO 5145, NRB 11725, BS341.
- Specific design on request, ie for a given type of cylinder valve.
- RPV or non RPV valves.
- Service pressure 360 bar.
- Most O2 connectors have been tested and approved by AIR LIQUIDE CTE (Expertise Technological center).
- Oxygen adiabatic compression test on request for new connections.

## Options

- Safety ring.
- Specific steering Wheel.
- Protection skirt for oxygen use.
- Angle connector.
- Swivel connector.
